

Drive Your Business With MTech Mobility

A Full-Service Solution Provider

Offering a Full Device Lifecycle Worth of Solutions

Discover How MTech Can Assist You Every Step of the Way

Custom Solutions

The Infinity Series is a cutting-edge line of customized mobile device solutions designed to change your business' technology experience.

Solutions Consulting

Our knowledge of OEM products and your industry will help you choose the solutions, whether new or refurbished, that will provide your business with the greatest value.

Device Deployment

Our professionally configured and deployed services enable you to outsource the configuration and kitting of your devices to ensure seamless deployment across your enterprise.

Helpdesk Support

When your technology stops working, so does your workforce; but we can help you reduce downtime and restore productivity to maintain business continuity.

MDM Administration

MTech's deep bench of experts can take on all of the tasks associated with managing your MDM solution—from monitoring and update, to enforcing policies and security.

Depot Service

Minimize the impact of downtime by leveraging our advanced exchange program to keep things running smoothly at the point of sale, in the warehouse, or at the patient's bedside.

Device Repair

We offer out of warranty repair for mobile devices of any kind, including accidental damage—extending the lifecycle and improving return on investment.

Asset Recovery & Disposition

Our asset recovery and IT asset disposition (ITAD) services offer sustainable options from repair or refurbishing devices to breaking down, recycling parts, and destroying devices.

Reporting & Analytics

Our platform provides real-time visibility into inventory, asset status and history, activity, and performance on demand.

Take Your Solution to the Next Level

With MTech, you can drive devices—like Samsung—to build the best full-service mobile solution for your business. From tablets and smartphones for business to kiosks and wall displays, you can provide customers and staff with the solutions needed to build a better experience.

Industry Use Cases

Hospitality

Create efficiencies for your servers. Bringing tablets to the table side can increase order accuracy, improve communication with the kitchen, and ensure faster table turn times with integrated mobile payment solutions.

Entertainment

Use kiosks to expedite customer parking and get guests into the game faster. Displays can also help disseminate information throughout the venue, including informational areas and concession menu displays.

Retail

Allow retailers to increase customer satisfaction from anywhere in the store with mobile tablet and smartphone solutions. Offer the ability to check inventory, make payments, and engage with customers.

Travel

Logistics can be a nightmare, but not when the right mobile devices are available. Enhance organization by tracking luggage with tablets, passenger check-ins on kiosks, offering cashless payment options, and more.

Healthcare

Leverage mobile tablets, smartphones, and wearables to drive remote patient care, disease management, point of care efficiency, and patient intake and consent.

What Sets MTech Apart

Managed Services

We offer a complete portfolio of managed services that address the “heavy lifting” associated with deploying, supporting, and managing mobile devices of any kind.

Customized Solutions

We work with your team to create a powerful combination of hardware and software that fits your specific needs. From custom cases and docking stations to MDM and device repair, we can create a full-service solution just for you.

Global Reach

We offer consistent and reputable solutions and services that support end-users wherever they are. With locations in the US, EMEA, and Asia, MTech has you covered 24/7/365.
