Flexible mPOS Solutions: Dock and Pay

MTech's integration capabilities allow you to use our Dock and Pay POS system for maximum flexibility made possible by DeX technology. Additionally, you can add your mPOS tablet to a docking station, doubling as a self-service terminal. There is no need to remove the case! Lastly, simply flip the screen around to prompt or assist the customer.

mPOS Service Options

Device Protection
Get complete repair coverage for manufacturer defects outside the OEM covered period and accidental damage. We offer unlimited eligibility, and the age of a device does not impact coverage options.

Managed Services
With Samsung KNOX Suites or another EMM solution, gain control over devices remotely to update, enforce policies, and secure them. Additionally, monitor devices, catching issues before the user recognizes them, eliminating downtime.

Features of Our Mobility Solution

- ☑ Flexible accessory options like cases, charging cradles, and straps
- ☑ Compact or large touchscreen display options
- ☑ Push-to-talk for voice chat and multimedia sharing apps
- ☑ Payments attached
- ☑ Rugged device with a durable battery life
- ☑ User-friendly OS build

Advanced Exchange

Device replacements from the exchange will arrive pre-configured, loaded with all firmware, applications, security, and connectivity settings you'll need. Minimize the impact of downtime to keep things running smoothly.

Help Desk Support

Reduce downtime and restore productivity to maintain business continuity. Our state-of-the-art helpdesk centers in North America, EMEA, and Asia are multi-lingual and can provide mobile device support 24/7/365.

Deployment

Our team of mobility solutions consultants will procure and set up your entire fleet of devices, installing the operating systems, security features, connectivity platforms, and applications you need for your business.
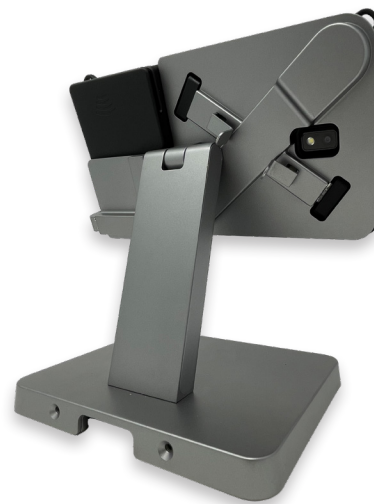

Professional Services

We have a deep bench of consultants that will guide you through selecting and implementing your mobile device management solution and moving from your current system if needed.

Device and Accessories
